Following publication of the article, it came to the attention of the journal that the authors' corrections to Table 2 had not been implemented during production of the article. As a result, there were incorrect values in the table. Specifically, in the third row from the bottom ('Pure effect' of 'Microbe variables'), numbers in the row were incorrectly ordered and a minus sign had been added in error. The table has since been corrected in the published article. The publisher thanks you for reading this erratum and apologizes for any inconvenience caused.
